

Mind Plus Retreat Coronavirus Protocol

With the mounting concerns over the COVID-19 pandemic and the spread of the coronavirus in the nation, novel and extraordinary safety measures are taking place across the country. Here at Mind Plus Retreat, we are diligent in our efforts to protect our patients and staff according to guidelines recommended by Ministry of Health and Welfare Department

At Mind Plus Retreat, our top priority is the health and safety of our patients and staff members. We are taking the coronavirus menace extremely serious at all of our locations. Our teams have started to implement specific coronavirus protocol for rehab centers in order to not only protect our current patients and staff members, but also those looking to start their recovery journey at one of our facilities.

Mind Plus Retreat coronavirus protocol includes following measures:

- Screening for coronavirus before admission
- Thorough cleaning and sanitation of facilities and supplies on a regular basis
- Asking staff to remain home if they exhibit any symptoms of coronavirus
- Continued monitoring of all patient's health and signs of COVID symptoms
- Reducing the amount of close contact among patients and staff
- Readily available cleaning supplies and hand sanitizer
- OPD is running through the windows with zero contact

Preventing the Spread of Coronavirus in Rehab and The Outside World

Along with our specific COVID-19 protocol for rehab, WHO has outlined some tips on preventing the spread of coronavirus including:

- Washing hands regularly and thoroughly with soap and water
- Using hand sanitizer
- Avoiding touching your face

- Cover your mouth and nose when sneezing or coughing and immediately wash your hands after
- Distancing yourself from others
- Avoid contact with anyone who may be sick
- Stay home and isolate yourself if you are feeling sick
- Disinfect frequently trafficked areas or touched items

Irrespective of your location, rehab may be a safer place than your current living situation. Along with a more controlled environment that is separated from the outside world, rehab also offers a hospital-like setting with medical personnel on staff. If you or your loved one is struggling with addiction, the time may be now to get professional help. We offer extensive options for substance abuse and mental health treatment
